

TERRIE WILLIAMS

Department of Biology
University of California
Santa Cruz, CA

Project: *Population Dynamics and Biology of the California Sea Otter at the Southern End of its Range*

Education:	B.A.	Biology, Douglass College	1976
	M.S.	Physiology, Rutgers University	1979
	Ph.D.	Environmental & Exercise Physiology, Rutgers University	1981
		Certificate Program in Molecular Biotechnology, UC San Diego	1989

Position: 1997-present Associate Professor of Biology, University of California, Santa Cruz

Selected Publications:

- Davis, R.W., L. Polasek, R. Watson, A. Fuson, T.M. Williams and S.B. Kanatous. 2004. The diving paradox: new insights into the role of the dive response in air-breathing vertebrates. *Comparative Biochemistry and Physiology Part A* **138**:263-268.
- Williams, T.M., L.A. Fuiman, M. Horning and R.W. Davis. 2004. The cost of foaging by a marine predator, the Weddell seal *Leptonychotes weddellii*: pricing by the stroke. *Journal of Experimental Biology* **207**:973-982.
- Davis, R.W., L.A. Fuiman, T.M. Williams and M. Horning. 2003. Classification of Weddell seal dives based on three-dimensional movements and video recorded observations. *Marine Ecology Progress Series* **264**:109-112.
